***JHR* Policy on Replication and Data Availability**

1. Manuscripts submitted to the *JHR* will be judged in part by whether they have reconciled their empirical results with already published work on the same topic.
2. Authors of accepted manuscripts will be asked to make their data available to other analysts from a date six months after *JHR* publication for a period of three years thereafter. Exemption from this requirement may be requested.
3. The *JHR* will consider replication, fragility, and sensitivity studies of empirical work that has appeared in the *JHR* in the last five years or empirical work judged by the editors to be important to the fields covered by the *JHR*.
