ILRReview

The Journal of Work and Policy

Issued quarterly since October 1947, the *ILRReview* is interdisciplinary in scope and international in its coverage of work and employment issues. We also publish reviews of some 20 books per year.

We define industrial relations to include a broad range of market, organizational, and institutional processes related to the world of work. Relevant topics include the organization of work, the nature of employment contracts, human resource management, employment relations, conflict management and dispute resolution, labor market dynamics and policies, labor and employment law, and employee attitudes and behaviors at work.

Our home page offers an index of all articles and book reviews published since 1947, abstracts of all articles, and information about upcoming issues.

Full text of all articles and book reviews published since October 2004 are available to subscribers online at <http://digitalcommons.ilr.cornell.edu/ilrreview/>. Some content is also available to nonsubscribers.

The Impact Factor of the *ILRReview* has been consistently ranked among the highest in its subject category by the *Social Sciences Citation Index*.
