Research in Natural Resources and in Urban
and Public Policy Issues

LAND ECONOMICS

Established in 1925 by the renowned economist and founder of the American Economic Association, Richard T. Ely at the University of Wisconsin, *Land Economics* has consistently published innovative, conceptual, and empirical research of direct relevance to economists. Each issue brings the latest results in international applied research on such topics as transportation, energy, urban and rural land use, housing, environmental quality, public utilities, and natural resources.

In addition to regular articles, there are comments on previously published articles, followed by replies from the original author. *Land Economics* also features book reviews of select recent releases and a full listing of books received.
