Submission Requirements

The JHR requires that all authors submit all manuscripts online. Please submit online at: <http://jhr.msubmit.net>.

Do not send submissions directly to the Editor, Coeditors, Managing Editor, or Editorial Office. Failure to submit online will only delay consideration.

Please see the submission website for information about the submission fee.

Please note that the JHR rarely considers submissions that have more than 35 pages of text, excluding tables, figures, and references. Appendixes with additional material may be submitted for consideration by editors and reviewers. An informational website with tables of contents, abstracts, and appendixes: www.ssc.wisc.edu/jhr

If you have difficulty submitting online, please contact JHR Managing Editor, Lisa Al-Amoodi <lalamoodi@wisc.edu>

JHR Policy on Replication and Data Availability

1. Manuscripts submitted to the JHR will be judged in part by whether they have reconciled their results with already published research on the same topic.
2. Authors of accepted manuscripts will be asked to preserve the data used in their analysis and to make the data available online in a well-curated repository (for example, the Inter-University Consortium for Political and Social Research (ICPSR), The Dataverse Project, or one's institutional repository) in the public domain [CC0 1.0 Universal (CC0 1.0) license]. Authors are required to provide their archive plans as a footnote with the submitted manuscript, including a persistent link (preferably a DOI link) to the data set. Authors are responsible for making available complete replication materials, including the data and code, models, and other materials necessary for replication, along with a read-me file to assist others in using the data. If the data are publicly available or, on the other hand, an exemption has been requested, authors should provide any supporting replication materials that can be supplied to assist researchers with replication, to be published with the manuscript as an Online Appendix.
3. Authors wishing to request an exemption from the data availability requirement should notify the editors at the time of manuscript submission; otherwise, authors will be assumed to accept the requirement. The use of proprietary data sets, for example, may prompt an exemption request. The JHR may grant a waiver of the replication policy if the data meet these criteria: (i) there is any method at all by which other researchers may obtain the data, and (ii) the authors commit to providing guidance about obtaining the data. In requesting a waiver, please provide a brief explanation of why the waiver is required and how you meet these criteria.
4. Authors who wish clarification of any aspect of this policy statement may write to the editor.
